Safety standards:

• Possible display locations:

For example directly at the point of sale or very closely to it: In department stores or store windows, in trade fairs or information booths ...

Or in small or medium sized sales rooms: In super markets, in boutiques, at filling stations ...

Or in lobbies, entry areas of buildings, show rooms and shopping malls ...

Well suited also for the integration into existing information systems.

• **Maximum number of frames:** 15
(medium thickness 0.1 mm)

• **Print materials:** Backlit film and high quality inkjet papers

• **Direction of movement:** horizontal

• **Placement:** Floor stand, as an option with castors; wall- and ceiling mounting;

A2: Optional with an angled floor stand

• **Construction:** Heavy duty metal construction, powder coated, 4.3 mm laminated glass

• **Elegant design** with attractive colour combinations

• **Remote control as an option:** The standstill intervals and the direction of motion may be selected with a remote control unit. This feature lends itself particularly to product presentations with commentary.

• Double-Display:

Two Motion Displays are also available combined with a single floor stand.
